Summary

Highly motivated and detail-oriented software developer with 1.5+ year of experience in developing scalable and efficient applications using Java, SpringBoot, Hibernate, Microservices, Aws DynamoDb, MySQL and Flutter. Proficient in designing and developing user-friendly interfaces, writing clean and testable code, and collaborating with cross-functional teams to deliver high-quality products. Strong understanding of software development life cycles. Passionate about learning new technologies and continuously improving coding skills to contribute to innovative software development

Work Experience

Crudags Technology Pvt Ltd

Software developer

Dec 2023 – Present

Playing partner app

- This is a sport application where we can create a match with strangers but should be the user of the app, you can do scoring of any sport's game and we can create an interest to play the game on specific date, time, ground, community, and any specific location etc. User can book any ground for match and some more very exciting features are available here.
- My contributions in the project are making a lot of APIs and design the UI also using different technologies like as **Java, SpringBoot, Hibernate, microservices, Aws DynamoDb, MySQL, SQS for backend and Flutter, Dart etc. for UI.**

Facility manager app

- This is also a sport application but can use only facility managers who manage the ground activities like slot booking, create tournament for the ground, add ground to the specific community, other activities which are done by the facility managers and more features are available here to make easy his work.
- My contributions in the project are making a lot of APIs and design the UI also using different technologies like as **Java, SpringBoot, Hibernate, microservices, Aws DynamoDb, MySQL, SQS for backend and Flutter, Dart etc. for UI.**
- Worked on **Admin panel** using angular, material UI etc.
- Designed and implemented Microservices-based architecture using SpringBoot, ensuring scalability, modularity, and continuous integration for both apps and admin portal as well.

Personal projects

- **TechBlogs**

TechBlogs is special kind of blogging system Where we can share our experience with other freshers and experienced persons about any kind of technology even, we can solve our problem by the other user who has solution of our problem related the technology which you shared in it. it is developed by using technologies (**Java, Jsp, Servlets, Html, CSS, JavaScript, Bootstrap, MySQL, Apache Tomcat server**)

- **NoteTaker**

NoteTaker has ability to create and store your short notes and when we need to access, we can use these notes, I used the technology in the development of it (**HTML, CSS, JS, Bootstrap, Jsp, Servlet, Hibernate, HQL, MySQL, Apache Tomcat server.**)

Skills

- Core and Advance Java
- SpringBoot
- Microservices
- Hibernate
- Angular
- AWS DynamoDb
- Debugging
- MySQL
- Flutter
- Material UI
- Html
- CSS

Education

- | | | |
|--|---|----------|
| • High School (K Asif M P High school, Salarpur, Sitapur, UP) | - | 74 % |
| • Intermediate (Birla Inter college, Hargaon, Sitapur, UP) | - | 74.6 % |
| • B. Tech (IT) (Bansal Institute of Engineering and Technology, Lucknow) | - | 8.4 CGPA |

Certifications

- Core java certifications from Codegrip
- SQL certification from HackerRank
- Java certification from HackerRank

Achievements

- All OOP's problem solved on HackerRank
I Have solved the all problems of the Oops on HackerRank
- 5★ rating in java programming and 3★ rating in problem solving on HackerRank.
- Got the medal in carrom board for our college from SRMU, Lucknow.
